SUMMARY

Cloud-focus professional with hands-on knowledge of AWS services including EC2, S3, IAM, RDS and VPC. Strong understanding of networking, Linux, SQL, Python, Git and Docker. Familiar with cloud infrastructure, networking and database concepts with a problem-solving and troubleshooting. Eager to contribute to cloud and infrastructure operations while continuously strengthening technical expertise.

SKILLS

Programming Language	: Python
Cloud Technologies	: AWS (S3, EC2, Route53, IAM, RDS and VPC)
Networking	: DNS, Ports & Protocols, Firewall, NAT, Network Troubleshooting
Containerization	: Docker
Version Control	: Git, GitHub
Databases	: SQL
Operating Systems	: Linux, Windows
Monitoring	: CloudWatch
Soft Skills	: Problem Solving, Debugging, Troubleshooting

WORK EXPERIENCE

LET'S MAKE EDUCATION SIMPLE (LMES)

2023 - 2024

Programming Instructor (Python)

- Delivered hands-on Python Game Development training to 200+ students, covering core programming concepts, object-oriented programming (OOP), and logic building using libraries.
- Designed and implemented structured coding curriculum with lesson plans, live coding sessions, and practical assignments. Provided real-time debugging support and resolved over 100+ code-related issues.
- Developed, tested, and optimized multiple Python-based educational games, focusing on event-driven programming, loops, conditions, and reusable functions to enhance performance and usability by 30%.
- Deployed interactive projects involving user input handling, graphics rendering, and game loops, resulting in a 20% increase in student engagement and learning outcomes in STEM-related activities.

CERTIFICATIONS

- AWS Cloud Training Certification**
Qtree Technologies
- Python Programming Certification**
HackerRank

EDUCATION

Bachelor of Engineering (B.E) in Electronics & Communication Engineering

2018- 2022

Government College of Engineering Bodinayakanur, Theni

- CGPA - 7.5 / 10
